

Woodlea primary School **PSHE Curriculum Statement**

At Woodlea Primary School, personal, social, health and economic (PSHE) education is an embedded part of our broad and balanced curriculum. Pupils' spiritual, moral, social and cultural (SMSC) development is at the heart of our school ethos. British Values are promoted through the overarching aims and objectives of PSHE by supporting our children to become healthy and responsible members of society, as well as preparing them for life and work in modern Britain.

Intent

The intent of our PSHE curriculum is to deliver a curriculum which is accessible to all and that will maximise the outcomes for every child so that they know more, remember more and understand more. At Woodlea Primary School, personal, social, health and economic (PSHE) education enables our children to become healthy, independent and responsible members of a society. It aims to help them understand how they are developing personally and socially, and tackles many of the moral, social and cultural issues that are part of growing up. We provide our children with opportunities for them to learn about rights and responsibilities and appreciate what it means to be a member of a diverse society. Our children are encouraged to develop their sense of self-worth by playing a positive role in contributing to school life and the wider community.

To build a PSHE curriculum, which develops learning and results in the acquisition of knowledge and skills, which enables children to access the wider curriculum and to prepare children to be a global citizen now, and in their future roles within a global community.

The curriculum will demonstrate appropriate subject knowledge, skills and understanding to fulfil the duties of the Relations Education (RE), Relationship and Sex Education (RSE) and Health Education (HE). Schools must provide a 'balanced and broadly-based curriculum which promotes the spiritual, moral, cultural, mental and physical development of pupils and prepares them for the opportunities and responsibilities and experiences for later life.

A strong and well balance curriculum will help to keep children and young people safe, physically and emotionally healthy and prepared for life and work in the future. In addition, the skills and attributes acquired through our PSHE education will have a significant impact on pupils' academic achievement, employability and future life chances.

At Woodlea, we deliver the PSHE curriculum by utilising first hand experience and sharing good practice. However, we are aware that the delivered curriculum must reflect the needs of our pupils. We expect teachers to use a PSHE programme to equip pupils with a sound understanding of risk and with the knowledge and skills necessary to make safe and informed decisions. We believe that the purpose of PSHE education is to build, where appropriate, on the statutory guidance outlined in the Relationships Education, Relationships and Sex Education (RSE) and Health Education.

We believe that PSHE plays a vital part of primary education and as well as discrete focused lessons, it is also embedded throughout the curriculum. PSHE is integral to the development of children's values in order for them to become a positive citizen in a forever changing community. PSHE is an important part of school assemblies where children's spiritual, moral, social and cultural curiosity is stimulated, challenged and nurtured.
